

VIII. Steel Bridges and Structures / I. Turkish IABMAS-IABSE Joint Workshop

Tentative Program

Time	Topic	Speaker
13:30–13:40	Opening	Nurdan Apaydın Alp Caner
13:40–15:00	New Trends and Requirements in Bridge and Structural Engineering	Klaus Ostenfeld
15:00–15:30	<i>Coffee Break</i>	-
15:30–16:00	Earthquake Engineering in Bridge Design	Polat Gülkan
16:00–16:30	Bridge Projects in Transportation Systems	Nurdan Apaydın
16:30–17:00	Special Features of Extradosed Bridges	Özgür Özkul
17:00–17:30	International Practices in Bridge Design Approval	Hülya Schaap Sönmez
17:30–18:30	Reception	-

The very first joint workshop of Turkish IABMAS and IABSE will focus on challenges involved in design and construction of special bridges, benefits of bridge management to the community, and importance of earthquake engineering in bridge design.

The joint workshop will be the first event for Turkish IABMAS and 8. for the Turkish IABSE groups.

In this workshop, bridge engineers will have the opportunity to meet with globally known speakers to discuss the new technological developments in bridge engineering.

Location : Movenpick Otel, Söğütözü Ankara
Date : 29 April 2019
Registration : Required through <http://www.tkic.org.tr/kayit.html>
